Hi Henry,

Bob explained to me that it makes financial sense for them to remove the tree debris near your property at the same time he is removing tree debris for Lots 9 and 10. To start any work on Lots 9 and 10, Bob needs to wait for permits.

Permits are being reviewed by the Director, who will likely release them by the end of the week or next week.

Thank you for your patience.

Camille, 11/6/2019

I know called you this morning on this but, I though I should send you this email to document the present situation. Thank you for your efforts in trying to resolve this problem.

Bob Pilgrim showed up here early last week and took pictures of the fallen tree, rotten tree and leftover logs from previous tree removal and said he would bring in a crew and take care of the problem on the following Monday 11/4. He did not show up that morning and I called him and he said " I'm waiting for a permit, I will be there Wednesday. He did not show up this morning and I called him, he said " I don't have a permit, I can't do anything without a permit, you can call Camille they are the holding up the permit". Is that true are is Bob just avoiding doing the work? Your help on this is appreciated.

Henry Jung
